Double Click will open
“Finance” to 2nd nest.
2nd “depth” nest of
“Finance” after double
click. Just like folders.
2nd subdirectory.
“These are “Finance”
sub directories

3rd “depth” nest after double click ‘Receipts’
Use back navigator to go back and forth between ‘folders’ nest.
Or simply click “Documents” (Main directory) to navigate back to 1st nests.

Once back to 1st nest level then back arrow disappears. no need for it.

- Nests can keep going to at least 5 nest levels subdirectories
- Create new subdirectories in their respective nest windows.
- Any other expert advice/suggestions let me now.
